Place of Employment: _____

To the Manager of Human Resources:

I am currently an employee of _____ and a subscriber to _____'s personal health insurance plan. I use reflexology therapy as an effective and cost efficient means of maintaining my good health and to help address any health concerns that may arise.

I am very pleased with the results that I have experienced and would like to have reflexology therapy added as a benefit under your group health plan. Reflexology is an accepted health care modality throughout the world and in countries such as Great Britain, Germany, and China it stands alongside other treatments such as acupuncture, physiotherapy, chiropractic treatments and massage therapy as complimentary to mainstream medicine.

RAC reflexologists are certified and registered with the RCRT (Registered Canadian Reflexology Therapist) designation and are all subject to constant monitoring and involvement in the Continuing Education Program ensuring that the quality of treatment is at the highest level. I submit that RAC RCRT reflexologists are qualified service providers and, as such, their clients should have the added benefit of being able to claim reflexology treatment with our health plan. I ask that you add this modality.

Sincerely,

Address:
